Cellphone: +966 5384 20667

### **Working as QC Supervisor**

**Aramco Approved & CBT Pass**

#### **OBJECTIVE:**

To work for a company that offers me a challenging job that is well matched to my potential and interests intended for satisfying above company expectations and professional growth.

#### **PROFESSIONAL EXPERIENCE:**

More Than 11 Years of Professional Experience in Buildings, Infrastructure, oil & and gas, concreting, finishing, management, Quality Control & and different construction activities. Many projects I have worked with Saudi Aramco Like pipeline, oil and gas Wellhead, and Gas Plant.

#### **Ahmadiyah Contracting & Trading Co.**

**Designation:** QC Supervisor

**Project:** Marjan increment program / Tanajib Gas Plant (Package 9 & 11)

**Duration:** From June 2023 to the present.

#### **Responsibility includes:**

- To develop and ensure that the quality management system is implemented.
- Implements Quality Management System (QMS) and Provides advice and support during the preparation of revisions/improvements to the system.
- Implement the QMS in accordance with the ISO 9001 series requirements and the Schedule "Q" or project quality requirements of the Contract
- Development of the Project Quality Plan. TTPs and inspection checklists.
- Review the quality requirements in all applicable COMPANY standards and procedures and ensure that all the required information is included in each Inspection and Test Plan (ITP).
- conditions not conforming to the quality requirements of the Contract.
- Investigate the root cause of non-conformities and initiate corrective actions and preventive actions to prevent recurrence.
- Preparation of Quality Control procedures and Monitoring the Contractual Quality requirements implementation and ensuring timely problem resolution.
- Ensuring the control of the supplied materials and fabricated assemblies' preservations as per procedure and quality control requirements.
- Review documents prepared by Engineering. Procurement and Construction
- progress stages as per audit schedule.
- Monitor the third-party independent qualified inspection and civil testing agencies.
- Review the Concrete and asphalt mix designs prior to approval, monitoring the quality requirements of Concrete and Asphalt batching plants.
- Review the customer's specifications and undertake relevant Quality Tool Box
- (QTB) Meetings at the Site in order to avoid standard violations and repeated violations.

- Complete and coordinate the approval of the site's quality deliverables submittals and monthly evaluation of POI with the customer's representative.
- Ensure execution of Surveillance Programs through the development of Surveillance plans and through ongoing construction activities monitoring and auditing.
- Performs Subcontractors Quality Assessments / Quality Evaluations / Quality
- Audits as per contract requirements.
- Conduct the Senior Management Review meetings.
- Identify training needs for the personnel performing activities affecting quality and ensure training is performed.
- Maintain an active role in the internal continuous improvement of the QC team.
- Issue the Monthly Quality Management Report for the Construction phase.
- Conduct the kick-off meetings at the site to demonstrate the quality requirements.
- Arrange regular quality meetings with Company QA/PID representatives and attend weekly progress meetings with Company and Sub Contractors to resolve quality issues.
- Coordinate with QA/ PID/PMT representatives for project quality control matters.
- Managing quality control functions for the project including planning of quality control inspections and preparation of reports.
- Controlling construction corrective action,
- Control of construction non-conformance, testing, and inspection reports.
- Review and approve as necessary, construction quality-related procedures.
- Monitor inspection progress, review inspection reports documentation, and verify, upon completion of the work, that all requirements have been met and that the required quality records have been collected and filed.
- Assistance in the closeout of PMCC punch list/EIL items and handover record book.
- Performs department on-boarding and induction relevant to procedures, guidelines, policies, etc

### **KENT PLC / SA KENTZ.**

**Designation:** Senior QC Civil Inspector (Aramco Certified)

**Project:** BERRI Increment Project BI-11-20000-0494

**Duration:** From Feb-2022 to June-2023

### **Responsibility includes:**

- Conducting inspection as per approved Inspection and Test Plan (ITP), Perform, witness, test, and record results of inspection. Coordinate with the Independent Testing Laboratory in performing necessary tests and review all the test results.
- Preparation of ITPs and Checklists.
- Review contractor's Project specifications, Work Procedures, Method statements, ITP (Inspection and Test Plan), and Material approval requests.
- Prepare a request for inspection (RFI) according to the Approved ITP.
- Monitor at the site the implementation of QA/QC procedures by the contractors, and verify IFC Drawing and scope of work are followed by the contractor to ensure that the work is done as per Consultant standards and procedures.
- Materials receiving inspection of Re-Bars, Anchor bolts, Repair Materials concrete Coating Materials, etc. Prior to concrete work, re-bar inspection, visual inspection prior to concrete pouring.

- Monitor concrete pouring, and witness concrete testing, curing, and surface preparation of the foundation prior to bitumen coating or coal-tar Epoxy and backfilling.
- Monitor cracks repairing of Concrete foundation, pipe support foundation, line post foundations, light poles, and GF-1 GF-2 Foundations.
- Co-ordinate with Site Engineers for technical clarification prior to concrete pouring.
- Co-coordinating with client's inspection.
- Inspection of Form and Reinforcement work for foundations and anchor bolts prior to concrete and giving clearance for concrete work.
- Monitor the concrete pouring work including air content test, slump test, and temperature of concrete; verify the number of vibrators used for concrete pouring.
- Structural repair on the concreted area prior to surface preparation and repair.

#### **Abdul Mohsen A.H Al Tamimi Group.**

**Designation:** QA/QC Civil Inspector / Batch Plant Inspector (Aramco Certified)

**Project:** Master Gas Pipeline Corridor Project BI-10-01810-0005

**Duration:** From Oct 2019 to Nov 2021.

#### **Responsibility includes:**

- Conducting inspection as per approved Inspection and Test Plan (ITP), Perform, witness, test, and record results of inspection. Coordinate with the Independent Testing Laboratory in performing necessary tests and review all the test results.
- Preparation of ITPs and Checklists.
- Review contractor's Project specifications, Work Procedures, Method statements, ITP (Inspection and Test Plan), and Material approval requests.
- Prepare a request for inspection (RFI) according to the Approved ITP.
- Monitor at the site the implementation of QA/QC procedures by the contractors, and verify IFC Drawing and scope of work are followed by the contractor to ensure that the work is done as per Consultant standards & and procedures.
- Witness the Inspections of Riprap, Gabion/Mattress, and Field Density Test (FDT) prior to concrete work, re-bar inspection, and visual inspection prior to concrete pouring.
- Monitor concrete pouring, and witness concrete testing, curing, and surface preparation of the foundation prior to bitumen coating and backfilling.
- Monitor cracks repairing Concrete Access Roads, Cutting for Contraction joints, and Expansion joints of Access Road Filling with Sealant.
- Co-ordinate with Site Engineers for technical clarification prior to concrete pouring.
- Co-coordinating with client's inspection.
- Inspection of Form and Reinforcement work for foundation, retaining walls wall, and Access Roads prior to concrete and giving clearance for concrete work.
- Monitor the concrete pouring work including air content test, slump test, and temperature of concrete; verify the number of vibrators used for concrete pouring.
- Structural repair on the concreted area prior to surface preparation and repair.

#### **El Seif Engineering Contracting Co.**

**Designation:** QA/QC Civil Inspector /Pre-cast Factory

**Project:** MOI Housing Complexes in Southern Border Areas

**Duration:** From May- 2018 to Sep- 2019.

**Responsibility includes:**

- Conducting inspection as per approved Inspection and Test Plan (ITP), Perform, witness, test, and record result of inspection. Coordinate with the Independent Testing Laboratory in performing necessary tests and review all the test results.
- Preparation of ITPs and Checklists.
- Review contractors' Project specifications, Procedures, Method statements, ITP (Inspection and Test Plan), and Material approval requests.
- Prepare a request for inspection (RFI) according to the Approved ITP.
- Monitor at the site the implementation of QA/QC procedures by the contractors, and verify IFC Drawing and scope of work are followed by the contractor to ensure that the work is done as per Consultant standards & and procedures.
- Witness the Inspections of Mold, re-bar inspection, and visual inspection prior to concrete pouring.
- Monitor concrete pouring, and witness concrete testing, curing, and surface preparation of the foundation and wall panels, columns, Beams Stairs Etc.
- Co-ordinate with electrical and Mechanical disciplines engineers for technical clarification prior to concrete pouring & and closing MEP Clearance Report.
- Co-coordinating with client's inspection.
- Inspection of Mould and Reinforcement work for wall panels, footings, and foundation prior to concrete and giving clearance for concrete work.
- Monitor the concrete pouring work including air content test, slump test, and temperature of concrete; verify the number of vibrators used for concrete pouring.
- Structural repair on the concreted area prior to surface preparation and repair.

**SNC-Lavalin Engineering Company**

**Designation:** Lead Civil Engineer

**Project:** Northern Arabian Unconventional Gas-System B Project (S Aramco)

**Duration:** From Nov-2017 to May 2018.

**Responsibility includes:**

- Supervision for construction of the Northern Arabian Unconventional Gas-System B Project reign Turaif Saudi Arabia.
- Supervision for construction of Control Rooms and Rapid Response Stations including cost in situ and precast concrete structures.
- Coordinate with engineering on constructability and design issues relating to civil disciplines such as piling, concrete, and earthworks.
- Establish a civil design/field engineering working relationship and lines of communication with the Project Engineer, including agreement on civil engineering deliverables and overall construction application configuration management.
- Responsible for quantity take-off, control, tracking, reporting, and forecasting for civil discipline.

- Administer major subcontract changes regarding civil discipline and represent the company in major contractual discussions and negotiations.

### **ETWALL TECHNOLOGIES.**

**Designation:** QA/QC Civil Inspector

**Project:** KACWC ITHRA

**Duration:** From Apr-2016 to Nov-2017.

### **Responsibility includes:**

- Responsible for all ongoing site activities inspection according to submitted Request for Inspection (RFI) QC personnel.
- Review contractor's Project specifications, Procedures, Method statements, ITP (Inspection and Test Plan), and Material approval requests.
- Monitor at the site the implementation work procedures by the contractors, and verify IFC Drawing and scope of work are followed by the contractor to ensure that the work is done as per Aramco standards & and procedures.
- Monitors and Conducts inspection with QC and testing (Architecture/Finishes, Gypsum Board, walls, False Ceiling, Doors, Windows, Building Insulation, Curtain Walls, and Tiles work) based on Inspection and Test Plan, Checklist, Method Statement, and Works Procedures.
- Monitors and Inspects excavation, compaction, and Field Density Test (FDT) prior to lean concrete work, re-bar inspection, and visual inspection prior to concrete pouring.
- Monitor concrete pouring, curing, and surface preparation of the foundation prior to bitumen coating or Coal-Tar Epoxy and backfilling.

- Co-coordinating with contractor QC before the inspection.
- Monitors Form and Reinforcement work for footings and foundation prior to concrete and Takes clearance for concrete work.
- Monitor the concrete pouring work including air content test, slump test, and temperature of Concrete, and verify the number of vibrators used for concrete pouring.
- I got my duties on different structures and coordinated with the consultant from time to time for materials approval to be reflected in the drawing.

#### **Afaq Sada Contracting Company:**

**Designation:** QC Civil Inspector

**Project:** Riyadh Metro project Line-3

**Duration:** From Mar 2014 to Apr- 2016

#### **Karsaaz Construction Company KP Pakistan**

**Designation:** Site Engineer

**Client:** Government of Khyber Pakhtunkhwa Pakistan

**Consultant:** NESPAK Pakistan

**Duration:** From Apr 2012 to Jan- 2014

## **PROFESSIONAL SKILLS**

Management of NCR Process. WIR/RFI/MIR process, Audits and closure, Quality Induction and Training, Project Quality Delivery Capabilities, consolidating data, Project Quality Index (POI). Statistical analysis, KPI preparation, traceability of documentation, and Quality Control Management Reports Writing, etc.

- Planning/Scheduling. Project Quality Documentation and Project Management. procurement quality Implementation, Testing and commissioning, and Co-ordination
- Good leadership skills
- Good knowledge of quality documentation.
- Excellent time management with strong organizational skills.
- Pro-active in approach to identifying the quality issues and their control measures.
- Quick Learning and being flexible to adapt to different environments
- Dedication, perseverance, and commitment at work.

#### **EDUCATION:**

- ASSOCIATE CIVIL ENGINEER  
Indus Polytechnic Institute Swat. BTE Peshawar, KPK Pak. (2009-2012)
- MATRICULATION(Science)  
Bright Future Model High School Swat. B.I.S.E District Swat.2009

**Certifications and Training:**

- **IOSH Managing Safety** from Institute of Safety Professional (ACME) KSA (2017)
- **QMS ISO 9001:2015** Lead Auditor /Auditor QMS ISO 9001:2015 "CQI-IRCA" (2021)

**PERSONAL ABILITIES & COMPUTER LITERACY:**

Problem solver, Quick Lerner, Target achiever, and Versatile

- AutoCAD TTB Peshawar. (2012)
- Total Station at SOKKIA Pakistan (Pvt) Ltd, Rawalpindi Office (2013)
- MS-Office Programs from Mingora College of Technology Swat. (2013)
- DIT From Mingora College of Technology Swat. (2015)
- Operating Systems Win10/ Win8/Win7

**PERSONAL DATA:**

Father Name	Faramosh Khan
Nationality	Pakistani
Occupation	Civil QC Inspector
<b>Iqama Status</b>	<b>Transferable</b>
Religion	Islam
<b>Driving License</b>	<b>Saudi Arab Valid</b>
