<p>What Does This Diagram Mean? The diagram uses four different performance rating categories to show your overall performance on the exam. Each rating reflects the number of questions you have answered correctly.</p> <p>How is Your Score Determined? IPSCMI has subject matter experts from around the world and from many different disciplines - to determine how many questions you must answer correctly to pass the exam. Each scored question on the exam is worth 10 points and your final score is calculated by totaling the points you have earned in the exam. The number of questions you answer correctly places you within one of the performance rating categories.</p> <p>Your Performance by Domain Using the same category (as above), your performance has been calculated within each domain. This will help you identify your strong areas - as well as those which need improvement - so that you know which areas to focus on and review.</p>
